Area Snapshot

The Southwest Corridor Town Hall area encompasses the communities between Sheridan Blvd. and Pecos Street and 76 Avenue to 52 Avenue. This community encompasses unincorporated Adams County and shares a boundary with the City of Arvada, City of Westminster, Commerce City, and the City of Denver. This community has experienced a lot of recent development as it has received three FasTrack stops. This area encompasses both new and established neighborhoods and businesses.

Southwest Corridor Town Hall

Crime and Traffic Statistics

On	Category	#
<input checked="" type="checkbox"/>	<u>Property</u>	2974
<input checked="" type="checkbox"/>	<u>Violent</u>	1558
<input checked="" type="checkbox"/>	<u>Traffic</u>	5799
<input checked="" type="checkbox"/>	<u>Proactive Policing</u>	2399
<input checked="" type="checkbox"/>	<u>Noise</u>	459
<input checked="" type="checkbox"/>	<u>Disorder</u>	6549
<input checked="" type="checkbox"/>	<u>Other</u>	2922

This report was generated by the Adams County Sheriff's Office *My Neighborhood Update* tool. The main issue in this area seems to be Disorder, followed by Traffic, and Property police calls.

It is important to note that "Disorder" includes matters such as: abandoned vehicles, shots fired suspicious incidents, disturbances, disorderly conduct, and animal issues. "Property" includes matters such as: burglary, criminal mischief, alarms, shoplifting, forgery, car theft, and trespassing.

Traditional Neighborhood on W 66th Ave and Varain Street

Community and Economic Development

Top Projects in Town Hall Area

1. Metro Waste water – new subdivision
2. Prologis / Hub 25 / Centercore - office / warehouse
3. New fire station located at the southwest corner of 70th Ave and Pecos St.
4. Brownfields Target Area (see map below for these locations)

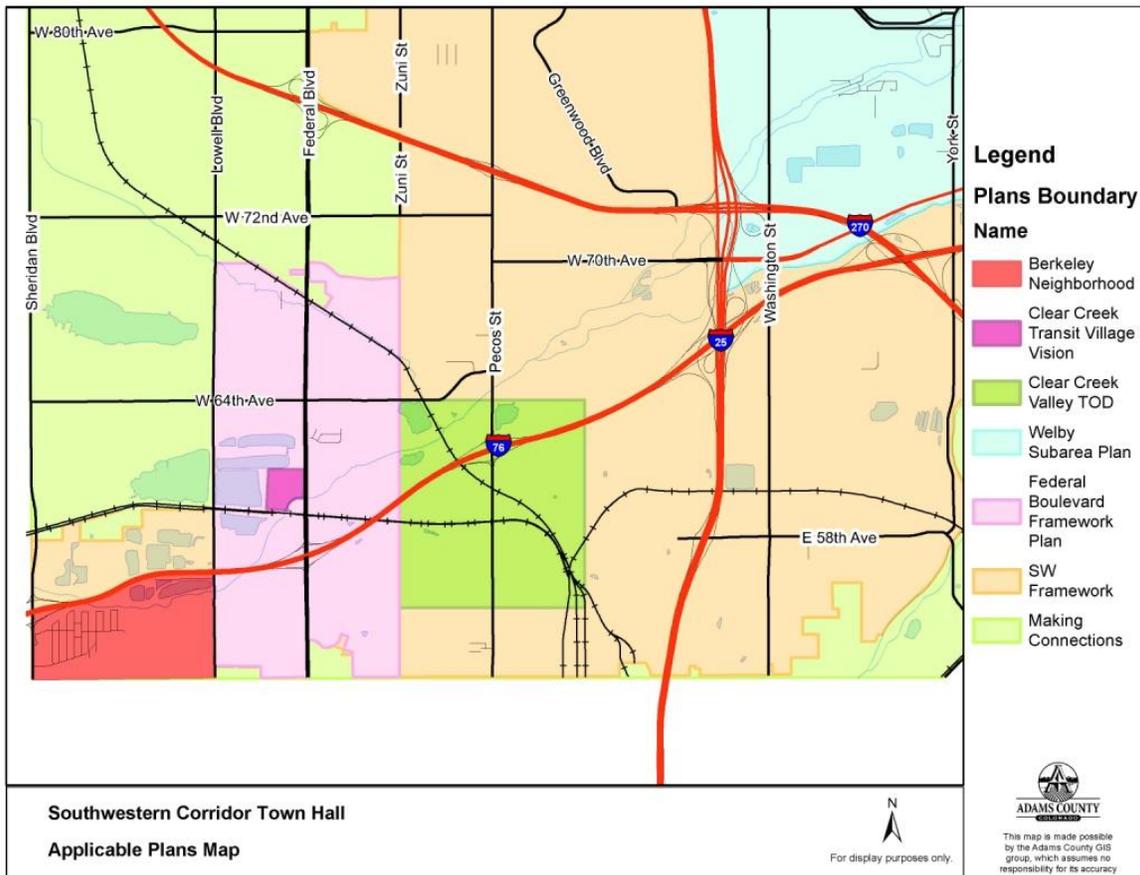

Ongoing Improvements

Within the Southwest Town Hall region is the Adams County Brownfields Target Area, which is approximately W 56th Ave to W 62nd Ave and Federal Blvd to Huron St (see attached map). The County has been spending down the last of a \$200,000 EPA Assessment Grant to aid in the redevelopment of potentially polluted parcels into commercially viable land for development. Three Phase I Environmental Site Assessments have been completed and one Phase II Environmental Site Assessment is currently underway.

Future Plans

Berkeley Neighborhood Plan - <http://www.adcogov.org/long-range-planning>

The plan, passed in 2008, identifies the community's assets (+) and challenges (-), along with associated goals and strategies:

- + Proximity to a higher education institution, Regis University;
- + A well-connected trail system; and
- + A strong Organized Citizen Group
- Older housing stock: maintain single-family nature, support Berkeley W&S MP
- Decreased homeownership: provide safe and adequate public improvements, expand youth activities, redevelop Berkeley Gardens school site
- Changing demographics: opportunities for cultural exchange with Regis students
- Parking issues with students: increase transit opportunities, address circulation issues
- Neighborhood safety and visual appearance: eliminate graffiti, address animal nuisances, build relationships with public safety agencies

Clear Creek Valley TOD Plan - <http://www.adcogov.org/long-range-planning>

The plan, passed in 2009, summarizes TOD best practices, applies them to the Clear Creek Valley Station study area, and provides a conceptual site plan, including massing and design views for the Transit Village. The goals include:

- Cleanup strategies for contaminated properties on the east side of Federal
- Floodplain mitigation in cooperation with the Urban Drainage and Flood Control District
- Encourage mixed-use and sustainable development
- Development of market potential, including land assembly and open space development

Welby Subarea Plan - <http://www.adcogov.org/long-range-planning>

The Welby area was identified in the 2012 Comprehensive Plan update as an area with a diverse mix of uses that includes single and multifamily residences, commercial businesses, agriculture, and industry. The diverse mix of uses and eclectic character is valued by area residents and reflects its unique history; however, as the diversity of uses in the area has increased over time, conflicts between different uses, such as conflicts between the residential neighborhood and industrial operations, have emerged. The purpose of the plan is to:

- Complete a more detailed analysis of the area, including inventories of land uses, assets and constraints, and infrastructure;
- Identify development trends; and
- Prepare a new land use plan

Federal Boulevard Framework Plan - <http://www.adcogov.org/long-range-planning>

The goal of the Federal Boulevard Corridor Framework Plan, passed in 2012, is to provide guidance for future planning, transportation and economic development investments along this important north-south corridor, which has experienced disinvestment over several decades and is challenged by health and safety concerns for motorists, bicyclists and pedestrians alike. Its strategies address a range of issues, including:

- Improving motorized, bike, and pedestrian circulation throughout the corridor;
- Blight and corridor signage/marketing/identity
- Economic development through land assembly and changes in land use

Southwest Adams County Framework Plan - <http://www.adcogov.org/long-range-planning>

The plan, adopted in 2005, was created to guide and organize the multiple planning efforts needed in this area due to the various land use types found in southwest Adams County. Many

neighborhoods have evolved to contain a mix of land uses. Each area has its own unique set of circumstances, issues and needs, and stakeholders.

Making Connections - <http://www.adcogov.org/long-range-planning>

The plan provides information and analysis that will lead to the infrastructure, land use, design guidelines and zoning applicability for the plan area of unincorporated Southwest Adams County. The plan recognizes the Triangle of Opportunity created by the Pecos, Arvada, and Westminster station areas that includes the Federal Boulevard Corridor and station area, as well as the other opportunity sites between stations within the project area. It provides “bundles” of strategies, which focus on:

- Funding sources for implementation
- Connecting subarea and corridor plans to results
- Implementing policies to support those results
- Identifying essential roadway, bicycle, and pedestrian improvements in strategic areas

Trends

Developers are proposing duplexes and high density residential between 52nd Avenue north to the light rail station along Federal Blvd. The area is primarily zoned C-5 (high intensity commercial) and R1-C (small lot single family residential). Current uses in the C-5 zone district are auto sales, auto repair and retail. The residentially zoned areas are primarily single family homes and duplexes.

Biggest Success

Redevelopment allowing creation of office warehouse areas such as Crossroads Commerce Park, Hub 25, Prologis and Centercore.

<http://www.adcogov.org/long-range-planning>

Code Enforcement

The Eye on Adams report highlights that in the past year, there have been approximately 100 code violations in the Town Hall area. There are currently approximately 40 active cases in the Town Hall area. Overall there were over 600 code enforcement violations in the entire unincorporated southern region (both east and west areas) within the last year. The most common code enforcement issues in this area were RV as well as material storage, weeds, and graffiti.

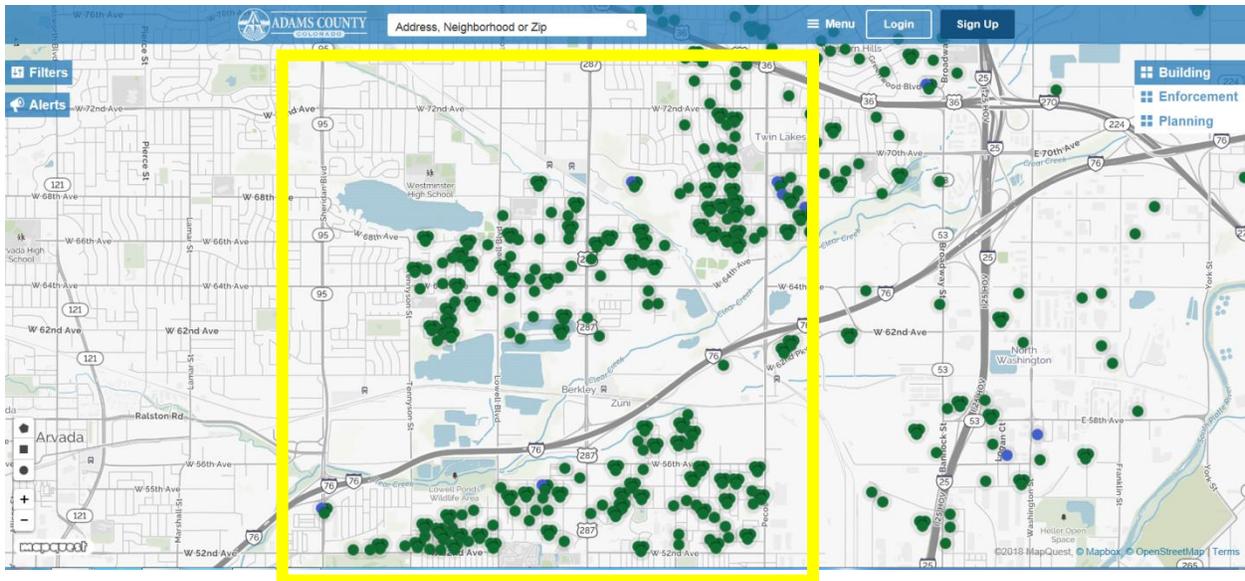

Eye on Adams Map: Green dots are completed/issued permits, blue are received permits. Map depicts a snapshot of building permits issued in the past year.

Need to contact Adams County Neighborhood Services? Got to:
<https://www.adcogov.org/neighborhood-services>

Building Permit Information

The Eye on Adams report finds that the County has issued approximately 100 building permits in the Town Hall area within the past year. The most common permits issued were home improvement permits for roofs, water heaters and siding, or additions to homes such as garages, and fences.

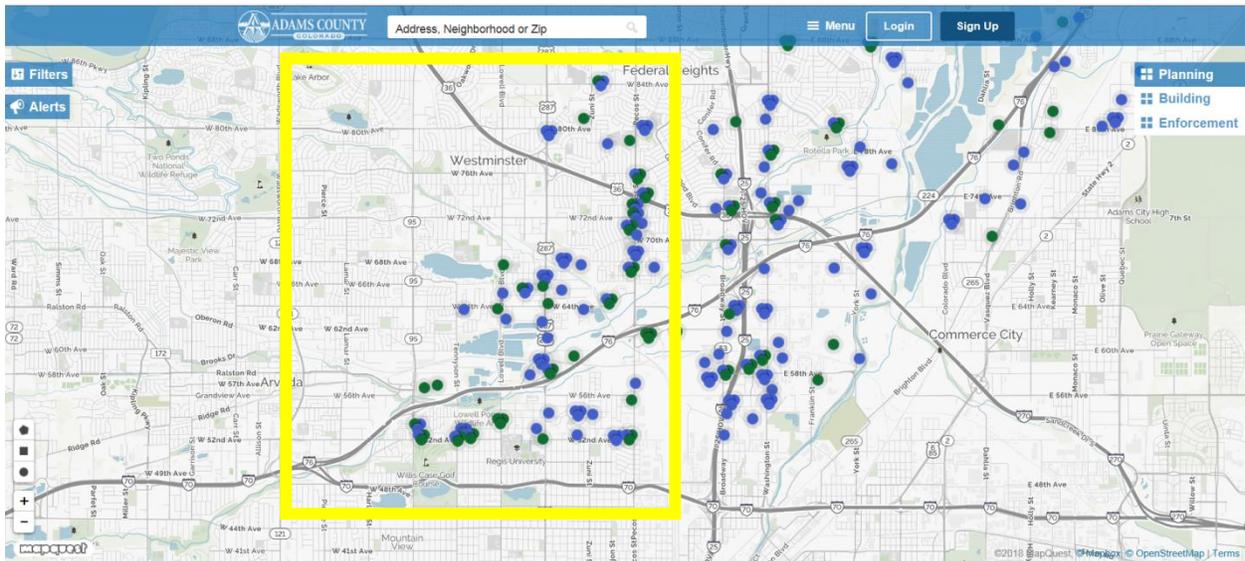

Eye on Adams Map: Green dots are completed/issued permits, blue are received permits. Map depicts a snapshot of building permits issued in the past year.

Need a building permit? You can apply online.

Got to: <https://permits.adcogov.org/citizenaccess/>

Land Use Cases

Over the last year there have been approximately 30 land use cases in the Town Hall area within the last year. The blue dots on the map show cases that are currently under review and green dots highlight completed land use cases. There are currently 40 open land use cases. The most common land use cases reviewed in this area are for business permits such as liquor licenses and temporary use permits for fireworks and tree lots. There are also several pending housing, subdivision plat approvals, and setback requests.

Need Adams County land use information? Visit our current land use page:

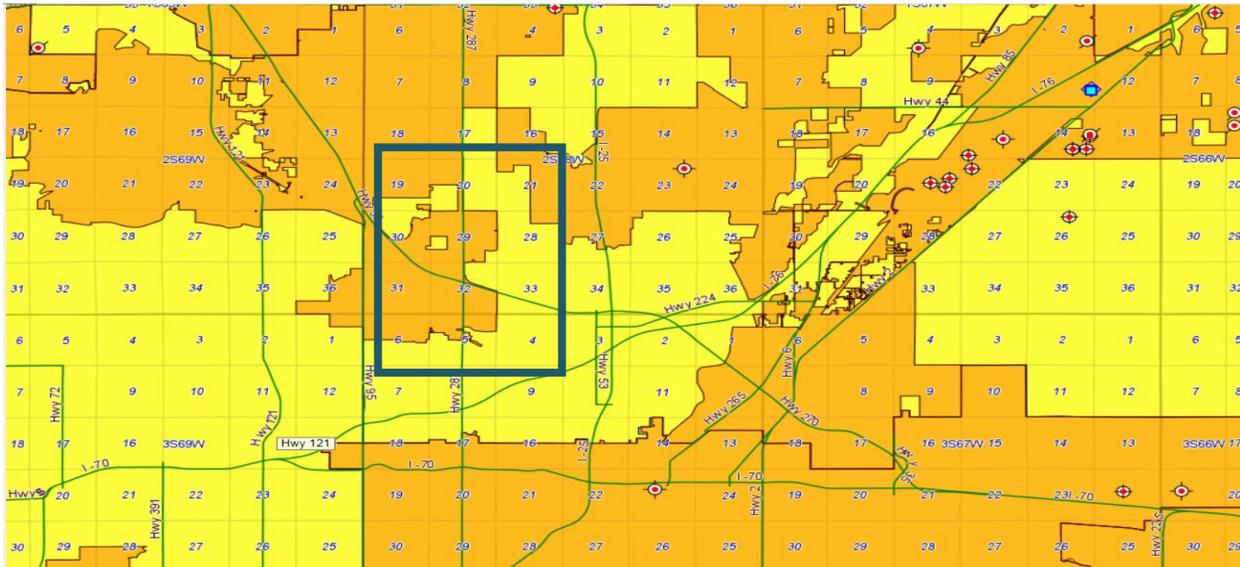

<https://www.adcogov.org/planning/currentcases>

Visit us today as we are often seeking public comment on land use cases.

You can use the Eye on Adams! It's located on our website! Got to: www.adcogov.org and under How Do I? Click on, View County Maps. There you will find the Eye on Adams tool that will help you see what building, code, and even planning activities are going on in your area!

Oil and Gas Information

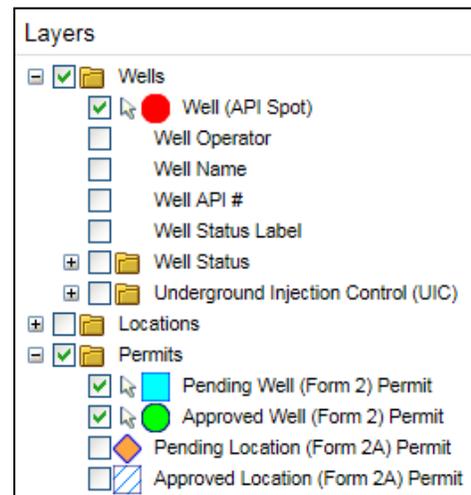

There is no oil and gas activity within the Town Hall area. This map is provided by the

Colorado Oil and Gas Conservation Commission and shows the current active oil and gas wells within and around the Town Hall Area.

The Oil and Gas Conservation Commission Map demonstrates that there are approximately ten well sights, and one pending well site far outside the Town Hall area. To learn more about county-wide regulation contact Christine Dougherty the County's Oil and Gas Liaison for more information: (720) 523-6891 or go to:

<http://www.adcogov.org/oil-and-gas-information>

County-wide – A Well Water Testing Program (pilot project) has been approved by the BoCC to provide free well water testing for any registered water well within ½ mile of an oil and gas well. Tri-County Health will be administering the program on behalf of the County.

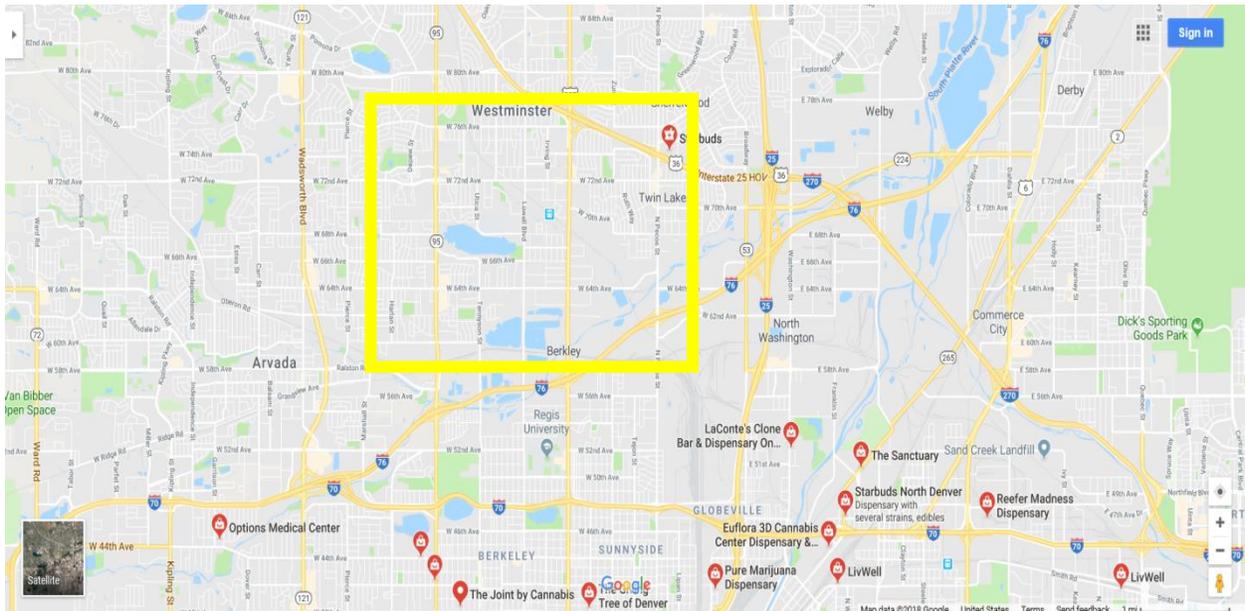

Want more information? Go to:

<http://cogcc.state.co.us/maps.html#/gisonline>
<http://www.adcogov.org/oil-and-gas-information>

The county updates its page weekly with an oil and gas report prepared by the county's oil and gas liaison.

Retail Marijuana Information

Adams County retail marijuana regulation currently caps marijuana retail facilities at 10 businesses. This includes marijuana infused product manufacturers (MIPS), retail marijuana stores, retail cultivation facilities, and retail marijuana testing facilities. There is one marijuana facility in the Town Hall Area. However there are 13 south and east of the Town Hall area.

Need Adams County Retail Marijuana Information? Visit us at:
<https://www.adcogov.org/marijuana-land-use-regulations>
<https://www.adcogov.org/marijuana-licensing>

Top Improvements, Projects, and Programs

BNSF Drop Structure/Recreation Enhancement:

The Public Works and Parks and Open Space Departments are partnering with the Burlington Northern Santa Fe Railroad and Urban Drainage and Flood Control District to make some major improvements to Clear Creek between Federal Boulevard and Pecos Street. A large drop structure in Clear Creek will be removed and several smaller drop structures will be installed. The project will provide better flood protection, allow for in-water recreation (kayak, canoe, etc.), and potentially allow the Clear Creek Trail to go under the railroad tracks and return to 64th Avenue on the east side of the BNSF tracks. We hope to provide better parking facilities, access to the water, and sitting areas along the creek as well.

Twin Lakes Park Renovation / Clear Creek Trail replacement:

Twin Lakes Park is currently being renovated. The renovation will improve pedestrian connections, expand the playground, stabilize the banks of the lakes, provide picnic shelters, and improve the landscaping on site. The restroom in the park will be removed and port-o-lets will be installed. In addition, a section of the Clear Creek Trail just west of Twin Lakes Park is being replaced to address severe cracking and erosion issues that have plagued this segment in recent years. Both projects will be complete this fall.

Closure of Lafayette Park / Formalization of Engineer's Lake Trailhead:

Lafayette Park, the hidden parking area off of Hwy 224 near Gilpin Street, has been closed since the spring of 2017. The area has been restored to a natural state. We are currently working on a design to rebuild the Engineer's Lake Trailhead, located off of Highway 224 near the South Platte River. This parking area provides excellent access to both the South Platte River and Clear Creek Trails. This project will: create a defined access drive, provide a paved, striped, and lighted parking lot for approximately 30 cars, provide identification signage, and provide a port-o-let and trail kiosk. The site will also incorporate storm water treatment, which does not exist today.

Adams County Fair:

Adams County Fair 2017 had over 74,000 people in attendance, which is a slight growth over 2016, despite two nights of thunderstorms. The headliners Dan & Shay were a huge hit and have been fun to watch since the Fair as they have taken off in their careers. The Fair's goal to bring in new, up and coming artists was achieved and we were all impressed with the energy their show brought to the Fair. Dia de la Familia set records in 2017 bringing over 27,000 attendees to the fair on Sunday. The Charreada and Los Cardenales de Nuevo Leon brought over 5,200 fans to the grandstands.

1. 4-H reported growth in several areas including poultry and sheep. They also sold just slightly more animals than in 2016 resulting in a higher sale total for the kids.
2. During the fall, Fair staff were busy attending conferences to book grounds entertainment, learn more about the industry, and even win a few awards for marketing and communications.
3. Kids Pedal Tractors will be returning, along with the entire kid's zone. The biggest addition coming this August will be Mutton Bustin' all 5 days! If your kid missed their chance at the National Western, bring them to the Fair and they will get the same chance to win great prizes for the longest ride!

Grandstand entertainment will be announced as we get closer to the Fair. This year's lineup is going to be *#unfairgettable*. (Our 2018 theme)

Anticipated Impact of Improvements

BNSF Drop Structure/Recreation Enhancement: This project will provide the public with access to the water, which was the top item mentioned during the Clear Creek Corridor Plan process. The reduction in drop structure sizes will provide a more stable environment that allows for recreation and performs better during storm events.

Twin Lakes Park Renovation / Clear Creek Trail replacement: This project should provide more usable facilities for visitors. This is one of Adams County's best loved parks, but was in desperate need of a makeover. A new irrigation system will greatly improve the turf while bank stabilization will allow for better fishing access. An enhanced playground and trails will better

serve visitor needs. Folks who regularly use this park are impacted right now, as the park is fully closed for the renovation.

Closure of Lafayette Park / Formalization of Engineer’s Lake Trailhead: The closure of Lafayette Park has removed a haven for illicit activity from the neighborhood. The improvements planned at Engineer’s Lake will create a formal space to access the trail that can be easily patrolled from the street.

Adams County Fair: The Adams County Fair is a great community event for the entire family to enjoy.

Future Plans for This Area

The Clear Creek Corridor Plan describes our future plans for this area of Adams County. The community envisions easy connections from neighborhoods to the Clear Creek Trail with a multitude of recreational opportunities available along the trail. The community wants to see much of the natural aspects of the corridor preserved, but with amenities included to enjoy these natural spaces. Development would face the creek and take advantage of the lovely views and trail access along the creek.

Community Trends

We heard that residents care about and want to preserve the natural areas of Adams County, particularly along Clear Creek. One threat to these areas is the growing population of homeless living in natural areas. Cleaning up trash along the trail corridor (most often from abandoned camps) is one of the most frequent requests we receive.

Biggest Success

The renovation of Rotella Park has been a huge success. The park is well-used and now provides amenities that are convenient for users.

Need Adams County Parks and Open Space Information? Visit us at:
<https://www.adcogov.org/parks-open-space>

Top Improvements, Projects, and Programs

1. Berkeley Sidewalks – Tennyson to Lowell; W 52nd Ave to W 54th Ave
2. ADA 5 Areas – E 55th Ave and E 56th Ave, Lincoln to Washington St.; E 66th Ave and E 68th, Washington St to York St; Steele St, 80th Ave to 86th Ave
3. Miscellaneous Concrete/ ADA Ramps – Western Hill and Sherrelwood neighborhoods/
Ramps on Broadway and Conifer
4. W 66th Avenue – Delaware St to Broadway St
5. The ditching is targeted for 58th & Tennyson to the South (underpass).
6. Litter control is mostly concentrated along that corridor as well.

Adams County Public Works continues to monitor road conditions and will complete any necessary improvements as they carry out their current transportation plan. You can learn about current road enhancements, the process of these projects, and about the County's transportation plan at: <http://www.adcogov.org/capital-improvement-program-cip-projects>

Should any issues arise the citizens are encouraged to utilize the YourGov app and provide information of any road issues.

This area has been identified as a targeted area for the 2018 Ditch Cleaning Program.

We are also currently monitoring this entire area for Litter Control on a heightened scale.

Should any issues arise the citizens are encouraged to utilize the YourGov app and provide information of any issues.

Anticipated Impact of Improvements

Higher quality roads, increased safety, cleaner and healthier community for residents traveling and living in the Southwest Corridor.

Please be advised while improvements are being completed expect short term road closures and delays in area.

Future Improvements

1. York Street – SH 224 to 78th Ave
2. E 58th Avenue – Washington St to York St
3. Streets Paving Program
4. Miscellaneous Concrete Program
5. Seal Program
6. The Ditch Cleaning Program- This program will improve upon the flow of stormwater drainage and increase the life of the asphalt as well.

Stormwater Updates

1. Stormwater CIP project in this area is Clear Creek Drop Structures between Zuni St and Tejon St
 - a. Design 2018/2019
 - b. Construction 2020
2. Drainage Maintenance continues throughout area with additional cleaning, inspections, and replacements.

Community Trends

1. Illegal dumping is the number one citizen concern/requests issue we are receiving in this area at this time.
2. Residents want new pavement in the areas that have not been addressed yet. Visit us at: <http://www.adcogov.org/capital-improvement-program-cip-projects> for upcoming projects!
3. We have logged 64 citizen requests for Weed/Litter clean up in the last year in this area

Animal Shelter/Adoptions

Top Projects that Impact Town Hall Area

While it is not located in this neighborhood, the new Adams County Animal Shelter/Adoption Center will be opening in mid 2020 and will serve all of Adams County.

1. New Adams County Animal Shelter and Public Dog Park “In Progress” (To serve all Adams County Residents and is set to open in 2020.)
 - Map of Future Location, Renderings, “Frequently Asked Questions” can be found at: <http://www.adcogov.org/acasnewlocation> (website will up continually updated as the project unfolds.)
 - Questions to animal-shelter@adcogov.org
2. Public Low-Cost Vaccination Clinic offered every other Wednesday at the shelter from 3-5:30 p.m.
 - Vaccinations \$10.00 each.
 - Spanish speaking staff onsite at every clinic.
 - Clinic Schedule is posted in the animal shelter section of the www.adcogov.org [http://www.adcogov.org/sites/default/files/LowCostVaccineClinic Poster April-June 2017pdf.pdf](http://www.adcogov.org/sites/default/files/LowCostVaccineClinic%20Poster%20April-June%202017.pdf)
3. Volunteer Opportunities at the Animal Shelter
 - General Volunteer Info: <http://www.adcogov.org/volunteer-program>
 - Foster Volunteers (in-home care: <http://www.adcogov.org/sites/default/files/Foster%20Care.jpg>)
 - Must be 16 years old. (Younger children can assist adult foster volunteers in home.)
 - 6th -Month Commitment Required
4. New Animal Shelter Website to Launch Mid-May 2018
 - New Website Address: <http://animalshelter.adcogov.org/>

Projects Details

- **New Adams County Animal Shelter Location** will be on the south end of the Adams County Regional Park (North of 120th and East of Riverdale Road in Unincorporated Adams County)
 - Map of Future Location, Renderings, “Frequently Asked Questions” can be found at: <http://www.adcogov.org/acasnewlocation>
- **Public Low-Cost Vaccination Clinics held at the Adams County Animal Shelter Year Round at**
Address:
10705 Fulton Street
Brighton, CO 80022
303-288-3294
Two Wednesdays per Month from 3-5:30 pm
Clinic Schedule is posted in the animal shelter section of the www.adcogov.org
[http://www.adcogov.org/sites/default/files/LowCostVaccineClinic Poster April-June 2017.pdf](http://www.adcogov.org/sites/default/files/LowCostVaccineClinic%20Poster%20April-June%202017.pdf)
- **Onsite Volunteering** also occurs at the above current shelter location

Impact of Projects

The new animal shelter facility improvements will include:

- Improved animal housing to improve animal health, behavior and adoptability
- A more safe, accessible location for both people and pets
- An upgraded health clinic to treat ill or injured pets and perform spay/neuter surgeries
- Private counseling spaces for citizens
- More parking spaces

The new animal shelter website will be more user-friendly and require fewer steps to search for adoptable and lost animals. Direct links to contact animal control by jurisdiction will also be included on the site.

After mid-May 2018, the new animal shelter website will be: <http://animalshelter.adcogov.org/>

Community Trends

We are still seeing wildlife test positive for rabies along the Front Range. We strongly encourage pet owners to get their dogs and cats vaccinated at a local veterinary office or at one of the shelter's low-cost vaccination clinics. The clinics are held two Wednesday afternoons per month at the animal shelter—10705 Fulton Street, Brighton, CO 80601. Vaccinations are \$10 each. The current clinic schedule can be found on our website at:

<http://animalshelter.adcogov.org/vaccination-and-microchip-clinics>

About 2/3 of all animals that enter the Adams County Animal Shelter come in as lost pets. We encourage pet owners to have their pets spayed and neutered to decrease their urge to roam, to have their pets wear a collar with a visible ID tag, as well as to have a microchip. The shelter offers microchips for \$20, which can also be obtained at the shelter's bi-monthly vaccination and microchip clinics. See schedule: <http://animalshelter.adcogov.org/vaccination-and-microchip-clinics>

Pet owners living in Unincorporated Adams County must obtain a dog license each year—free if your pet is spayed or neutered. \$25 if not spay/neutered.

Animal Shelter Data

2016: 5,683 sheltered + 1,432 seen at vaccination clinics = **7,115 total animals served**

2017: 5,369 sheltered + 1,629 seen at vaccination clinics = **6,998 total animals served.**

Also in 2017

- 2,377 Animals Adopted
- 1,499 Lost Animals Returned Home
- 5,071 Animals Vaccinated
- 2,208 Animals Micro-chipped
- 1,591 Animals Spay/Neutered
- 148 Animals Received Dental Procedures
- 420 Animals Fostered
- 282 Animals Received End-of-Life Services
- 911 Dog Licenses Issued

Biggest Success

Animal Save Rate

- **Increased Save Rate of animals.** Of all the more than 5,200+ new animals that came into the shelter in 2017, 89.1 % were saved—meaning they were either adopted, returned home, sent to rescue or transferred to another shelter.
- **The shelter has increased its annual save rate for the third year in a row.**

Volunteer Program- Questions about volunteering? Email at acasvolunteer@adcogov.org

- 334 volunteers logged 17,564 service hours in 2017—the highest in shelter history
- Number of active volunteers has increased 187% over last 3 years
- Number of Service Hours has increased 244% over last 3 years
