COUNTY CONTRIBUTIONS for PRE65 RETIREE MEDICAL

Study Session
Board of County Commissioners
November 2, 2021
PURPOSE OF MEETING

To decide what the County contribution should be for the pre65 retiree medical plans.

The current County contribution is $50 per month.

County Manager Recommendation: Increase contribution to $500 per month.
COUNTY CONTRIBUTION OPTIONS

Option #1

• Increase contribution to $500/month immediately for both UHC and Kaiser enrollees.

• Reasons for option #1
  • Easier to communicate to retirees and easier for retirees to understand.
  • Provides consistency with all medical plans.
COUNTY CONTRIBUTION OPTIONS

Option #2
• Increase contribution to $500/month immediately for the UHC enrollees and incrementally over five years for Kaiser enrollees.

• Reason for option #2
  • The UHC plan is already un-blended and has higher premiums.
  • The County contribution will increase as the Kaiser premiums increase due to un-blending.

Retirement Healthcare Benefits
for
Adams County Employees
THE PROBLEM

- Employees can reach the early retirement age but can’t afford to retire because Medicare benefits are not available until they turn 65 years old.

- Some County employees serve in positions which are dangerous or involve strenuous activity better suited for younger staff members who are in better physical condition. These older staff members are at a higher risk for injury and cause the workman’s compensation and disability insurance claims to increase.

- In 2020 Workman’s Compensation claims for staff members over 55 years old totaled over 1.1 million dollars and are generally more expensive because they typically take longer to heal.
ADAMS COUNTY
EARLY RETIREMENT QUALIFICATIONS

◊ Employees hired before January 1, 2005:
  ◦ Age 65, or
  ◦ Age plus years of service equals 70 or more, or
  ◦ Anytime after reaching age 55 and at least five years of service.

◊ Employees hired on or after January 1, 2005 but before January 1, 2010:
  ◦ Age 65, or
  ◦ Age plus years of service equals 70 or more and your age is at least 50 at the time your employment ends, or
  ◦ Anytime after reaching age 55 and at least ten years of service.

◊ Employees hired on or after January 1, 2010:
  ◦ Age 65, or
  ◦ Age plus years of service equals 80 or more and your age is at least 55, or
  ◦ Age 55 if you have at least 10 years of credite service.
CURRENT RETIREMENT HEALTHCARE BENEFIT

- Retirees must pay 100% of the retiree healthcare premium or Medicare Advantage coverage minus $50 monthly contribution from the County.
- Regular full-time employees who retire from the County can continue on the County’s health, dental, vision, DispatchHealth and Telemedicine until reaching age 65 or becoming Medicare eligible, which ever occurs first.
- After age 65 retirees may choose from three Medicare Supplemental Plan options through UHC and Kaiser.
- Retirees can only participate in a Health Savings Account (HSA) if they enroll in the UHC Choice Plus High Deductible Health Plan (HDHP). The County does not contribute to the HSA.
- Accrued sick leave is paid out at half of its value, directly to the retiree.
PROPOSED RETIREE HEALTHCARE BENEFIT

- Modify the current retiree healthcare benefit and Medicare Advantage coverage benefit so the County pays the equivalent employer portion of the medical, dental and vision premiums and the retiree pays the employee portion of the premiums.
- Continue allowing the retirees to access DispatchHealth and Telemedicine, and add the employee health clinic as part of the benefit.
- Employees who accrue more than 720 hrs of sick leave will transfer the value of the additional sick leave into an investment vehicle instead of losing it.

Estimated annual 10% premium increase provided by County Finance staff
Assumptions

◊ Benefit projections are based on cost of the two most popular single coverage medical plans offered to County retirees.

◊ In 2021 the County pays 86.9% of the active employee’s premium on the UHC Choice EPO and 86.7% of the active employee’s premium on the Kaiser Permanente HMO.

◊ New retiree must have been enrolled in a County medical plan prior to retirement. The retiree can have family coverage if they had family coverage prior to retirement.

◊ Retirees waiving medical coverage at the time of retirement will lose all coverage and may not enroll at any future date.

◊ Anyone hired after they turn 48 years old would only be eligible for Medicare supplement because they will turn 65 when they reach the rule of 80.
Neighboring Communities

- Thornton pays employer portion of the healthcare benefit when police or fire retiree’s age and years of service equal 80.

- Commerce City provides police officers with the lowest single premium or one-half lowest single plus dependent if employee plus spouse. All other retirees receive $410/month if hired prior to July 1, 2006.

- Lakewood provides a benefit to all eligible retirees of $32.50 for each year of service up to $650/month.

- Brighton pays $500 per month towards a health premium for anyone hired before January 1, 2008 with twenty years of service and mandates an individual HSA account with a .5% unmatched employee contribution.
Recommendations for the BOCC

- Report on cost and use of this benefit be provided to BOCC each year as part of budget deliberations.
- The County will pay the employer portion of the monthly retiree premium at a percentage equal to the active employee coverage. Retirees will continue to pay the employee portion.
- Retirees under 65 may utilize the employee health clinic.
- Employees can contribute sick leave into an investment savings vehicle when capped at 720 hrs and upon retirement.
