

Xcel Energy North Metro Natural Gas Pipeline Project

Adams County Weekly Report

Submission Date: Dec. 22, 2017

Week of Dec. 25, 2017

Project Overview

Xcel Energy is installing a new 5-mile-long, 24-inch-diameter pipeline beginning at the Cherokee Power Plant in Adams County. This new pipeline will allow us to continue to provide the safe and reliable gas service our customers expect.

Lane Closures

The eastbound lane on 62nd Avenue between Washington and Downing streets will be closed for installation of this new natural gas pipeline. Construction activities on 62nd Avenue between Washington and Downing streets are anticipated to last until the end of March 2018.

In early 2018, construction activities are anticipated to take place at the following locations:

- Easternmost northbound lane of Washington Street between 58th and 64th avenues in Adams County.
- Logan Court, south of 58th Avenue in Adams County.

Detours/Alternate Access

To bypass this lane closure on 62nd Avenue between Washington and Downing streets, area commuters, cyclists and pedestrians should use 64th Avenue and Downing Street.

For your safety, please stay a safe distance from construction sites and follow all posted construction signs and directions from construction personnel.
