

Air Pollution Control Division

Notice of a Proposed Project or Activity Warranting Public Comment

Website Title: Great Western Operating Company - Edmunson LE Pad - Adams County

Notice Period Begins: January 31, 2023

Notice is hereby given that an application for a proposed project or activity has been submitted to the Colorado Air Pollution Control Division for the following source of air pollution:

Applicant: Great Western Operating Company
Facility: Edmunson LE Pad
Well Production Facility
SESE quadrant of Section S30, Township T1S, Range 66W
Adams County

The proposed project or activity is as follows: Great Western Operating Company's Edmunson well pad was permitted under a GP10 received May 5th, 2021. This permitting action permits points 002,003, and 04 under three individual construction permits. A GP11 registration for the Routine or Predictable Gas Venting emissions at the well pad was also received with this application. At this facility gas is routed from VRT, Heater Treater, and Separators into a Gas sales line via an electric VRU. Condensate which is stored at point 002 (3) 500 bbl Condensate Storage tank (controlled by ECD) is loaded out 90% of time via a LACT to pipeline and 10% of the time loaded out by trucks (loadout is controlled by ECDs). Produced water is sent to point 003, three (3) 500bbl storage tanks, and controlled by an ECD. Loadout of produced water via trucks is uncontrolled.

The Division has determined that this permitting action is subject to public comment per Colorado Regulation No. 3, Part B, Section III.C due to the following reason(s):

- the source is requesting a federally enforceable limit on the potential to emit in order to avoid other requirements

The Division has made a preliminary determination of approval of the application.

A copy of the application, the Division's analysis, and a draft of Construction Permits 22AD0109, 22AD0110, and 22AD0111 are available on the Division's website at <https://www.colorado.gov/cdphe/air-permit-public-notices>

The Division hereby solicits submission of public comment from any interested person concerning the ability of the proposed project or activity to comply with the applicable standards and regulations of the Commission. The Division will receive and consider written public comments for thirty calendar days after the date of this Notice. Comments may be submitted using the following options:

- Use the web form at <https://www.colorado.gov/cdphe/air-permit-public-notices>. This page also includes guidance for public participation
- Send an email to cdphe_apcd_airpermitcomments@state.co.us
- Send comments to our mailing address:
