

# Air Pollution Control Division

## Notice of a Proposed Project or Activity Warranting Public Comment

Website Title: Great Western Operating Company, LLC - Schaefer Pad - Adams County

Notice Period Begins: March 10, 2023

Notice is hereby given that an application for a proposed project or activity has been submitted to the Colorado Air Pollution Control Division for the following source of air pollution:

Applicant: Great Western Operating Company, LLC  
Facility: Schaefer Pad  
Well Production Facility  
SWSE quadrant of Section 24, Township 1S, Range 67W  
Adams County

The proposed project or activity is as follows: The applicant requests modifying the two permits covering point 001 (Permit 20AD0585) and 002 (Permit 22AD0223) with new throughputs but maintains the same previously approved site specific emission factor for point 001, and continues to use the state default factors for point 002 (which was previously covered under a GP08). This project also requests APEN required, permit exempt status to the liquid loading at point 003 (Permit 20AD0278). Point 003 is permit exempt because the condensate truck loading equipment is located at an exploration and production site, it is a submerged fill operation and the throughput is less than 16,308 barrels of condensate per year. Thus, the operation qualifies as permit exempt per Regulation No. 3, Part B, Section II.D.1.l. Point 003 was previously permit required

The Division has determined that this permitting action is subject to public comment per Colorado Regulation No. 3, Part B, Section III.C due to the following reason(s):

- the source is requesting a federally enforceable limit on the potential to emit in order to avoid other requirements

The Division has made a preliminary determination of approval of the application.

A copy of the application, the Division's analysis, and a draft of Construction Permit 22AD0223 are available on the Division's website at <https://www.colorado.gov/cdphe/air-permit-public-notice>

The Division hereby solicits submission of public comment from any interested person concerning the ability of the proposed project or activity to comply with the applicable standards and regulations of the Commission. The Division will receive and consider written public comments for thirty calendar days after the date of this Notice. Comments may be submitted using the following options:

- Use the web form at <https://www.colorado.gov/cdphe/air-permit-public-notice>. This page also includes guidance for public participation
- Send an email to [cdphe\\_apcd\\_airpermitcomments@state.co.us](mailto:cdphe_apcd_airpermitcomments@state.co.us)
- Send written comments to our mailing address:
