## Reduce your energy bill with solar panels

Dear Homeowner,

Adams County, in partnership with nonprofit Solar United Neighbors, is happy to announce the launch of **Solar Switch**: a group buying program for solar installations. Solar Switch offers residents a hassle-free way to install rooftop solar panels and battery storage. By coming together as a group, residents can secure a discounted price on a rooftop solar installation for their home or small business.

### WHY SOLAR SWITCH?

It is **free** to register online at [SolarSwitch.com/AdamsCounty](https://SolarSwitch.com/AdamsCounty), and there is **no obligation** to purchase solar. Participants will have the option to move forward with a solar installation based on program-negotiated pricing that includes the group discount. The group discount is determined through a competitive auction process. Only qualified installers can participate.

Residents who participate are expected to save an average of **\$5,000** on a typical-sized solar installation. The federal tax credit could reduce costs by an additional 30%. Participants can also access free webinars on the process of going solar, as well as installer webinars after the auction has taken place. To learn more, visit [SolarSwitch.com/Webinars](https://SolarSwitch.com/Webinars).

### HOW DOES IT WORK?

1. **Register:** Sign up for free by **July 26** at [SolarSwitch.com/AdamsCounty](https://SolarSwitch.com/AdamsCounty).

*Note: You will not receive any sales calls, nor will your information be shared with third parties.*

2. **Auction:** A reverse auction with qualified installers will take place on **July 26**. The best bid wins the auction. The more people that register, the greater the discount will be.

3. **Personal recommendation:** You will receive a personal recommendation by **August 29**, based on your registration details. This offer will include your estimated costs, savings, and expected electricity generation.

4. **You decide:** You have until **October 4** to decide if you want to accept the recommendation. There is no obligation to accept. You will have access to free webinars and in-person learning events to aid you in the decision process.

5. **Installation:** If you accept, the winning installer will contact you for a site survey to confirm your personal proposal, and begin planning your installation.

To learn more and find out how much you can save, visit [SolarSwitch.com/AdamsCounty](https://SolarSwitch.com/AdamsCounty).

Respectfully,

**Adams County**
