WHEREAS, Colorado Revised Statutes (C.R.S.) Section 24-1.9-102(1)(a) authorizes the county department of human services/social services to enter memorandums of understanding with specific agencies for the purpose of promoting a collaborative system of local-level interagency oversight groups and individualized service and support teams to coordinate and manage the provision of services to children and families who would benefit from integrated multi-agency services; and

WHEREAS, the undersigned desire to enter into an agreement for the collaboration of services to families and children who would benefit from integrated multi-agency services; and

WHEREAS, the undersigned agencies include all of the agencies required by statute.

NOW THEREFORE, in consideration of the premises and mutual promises and covenants herein contained, and for their mutual benefit, the Parties agree as follows:

Term of the Agreement. This Memorandum of Understanding (MOU) shall be effective beginning July 1st, 2024 and shall expire June 30th, 2025.

Renewal of MOU. The Parties may renew this MOU annually, subject to mutual agreement. Each Party reserves the right to elect not to renew the MOU after the expiration of the current term. If any Party intends not to renew the MOU, it should give notice of such intent at least thirty (30) days prior to the expiration of the Agreement.

I. Oversight Group. The Parties agree that there is hereby created an Interagency Oversight Group (IOG) as authorized by C.R.S 24-1.9-102, that is identified locally as *the Adams County Collaborative Management Program (ACOMP)*, whose membership shall be comprised of a local representative of each Party to this MOU. Membership requirements, the status of each Party as a

voting member or advisory member, procedures for election of officers, procedures for resolving disputes, and procedures for the development of subcommittee groups can be found in the By-Laws/Procedure Guide (“By-Laws” or “Guide”) attached hereto as a labeled *Appendix A*. By signing this MOU, the Parties agree to follow and review these by-laws annually to ensure all statutory and rule mandates are met. Any changes to the by-laws are considered a revision to the MOU and shall require new submission to the State with new signatures of all mandated and non-mandated partners.

II. Target Population. In recognition of the goals of the Collaborative Management Program (CMP), children, youth, and families across systems are identified and served according to their contact with collaborative programs. The CMP target population consists of at-risk children and youth ages birth through twenty-one (21) years of age and their families who would benefit from a multi-system integrated service plan or multisystem approach. An Individualized Service and Support Team (ISST) includes two (2) or more system representatives that are present to assist a child/youth/family with developing an integrated service plan directed by family needs. The ISST identifies goals and facilitates collaboration and is a family-driven model for service planning. The child/youth/family members are present at and participating in the development of their plan. *ACCMP* serves their target population(s) directly through an ISST(s) called: *Partnering for Adams County Kids (PACK)*.

ACCMP may also serve children, youth, and families within their communities through the Collaborative Management Program by providing multi-system prevention program(s). The target population for these prevention programs consists of at-risk children and youth ages birth through twenty-one (21) years of age and their families who would benefit from a multisystem approach. A multisystem prevention program must include two (2) or more system representatives that establish a program that facilitates collaboration and address needs not currently provided within the community. *Multi-system Prevention Program(s) named 1) Foster and Kinship Medical and Behavioral Health Care Coordination, and 2) Community Development and Prevention Services Interventions*

III. Services. As authorized by Section 12 CCR 2509-4-7.303.32(A), Counties may elect to participate in CMP by entering a Memorandum of Understanding (MOU) that is designed to promote a collaborative system to coordinate and manage the provision of services to children, youth, and families who would benefit from an integrated multi-system approach to service and service delivery. The Parties agree to provide the following specific services, subject to the availability of funds for which the collaborative has authority as specified below.

Services Defined:

- The CMP’s ISST is called *Partnering for Adams County Kids (PACK)*. It functions as an integrated service planning model with specific policies and procedures recorded in the attached *Appendix B*.

SFY 2024-2025

- The CMP provides a prevention program through *Foster and Kinship Medical and Behavioral Health Care Coordination* prevention program. The description is attached as a labeled *Appendix C*. Prevention programs are mandated to meet at least one of the following: 1) multi-systemic approach; 2) multiple disciplines involved in the development or enhancement of the program; 3) multiple agencies involved in the delivery of the services; 4) program developed to reduce bifurcated services; or 5) joint approach benefiting children, youth and or families.
- The CMP provides a prevention program through *Community Development and Prevention Services Interventions* prevention program. The description is attached as a labeled *Appendix C*. Prevention programs are mandated to meet at least one of the following: 1) multi-systemic approach; 2) multiple disciplines involved in the development or enhancement of the program; 3) multiple agencies involved in the delivery of the services; 4) program developed to reduce bifurcated services; or 5) joint approach benefiting children, youth and or families.

IV. Authorization to Contribute Resources and Funding. Each Party represents that it has the authority to approve the contribution of time, resources, and funding to solve problems identified by *ACCMP* to create a seamless, collaborative system of delivering multi-agency services to children and families. The resources and funding to be contributed are identified in Section V: Funding Sources.

V. Funding Sources. Funding identified in this MOU may be a carryover from previous funding or savings, additional funding provided to the CMP program or any funds directed towards CMP. Additional funding may become available during the term of this MOU and the Parties agree to comply with any terms, conditions and restrictions on the funding made available to them. The Parties agree to financial risk sharing where commitments to support programs exceed the remaining monies available. The fiscal agent for *ACCMP* is Adams County Human Services (defaults to County Human Services/Social Service Departments) and by signing here  Katie McDougal (signature) of fiscal agent) agrees to assume financial risk. The financial risk defaults to the fiscal agent unless otherwise stated here _____ . For this reason, *ACCMP* projects a conservative budget based on currently available resources.

VI. Reinvestment of Funds Saved.

ACCMP has established a procedure to allow funds received by the CDHS, and allocated pursuant to CRS 24-1.9-104, to be reinvested by the Parties to provide appropriate services to children and families who would benefit from multi-agency services has been approved by the head or director of each Party, as documented in the By-Laws/Guide at Appendix A. *Article XII*.

The Parties agree by signing this MOU that the *ACCMP* will review the CMP budget regularly to ensure that CMP funds are being used to serve children, youth and families that are involved in multiple systems or at risk of involvement in multiple systems. This includes funds being used to serve children, youth and families who are part of an ISST, CMP prevention program or as a mechanism to increase collaboration among Parties.

VII. Collaborative Management Processes. Pursuant to section 24-1.9-102(2)(e), C.R.S., *ACCMP* has established a collaborative management process addressing risk sharing, resource pooling, performance expectations, outcome monitoring, and staff training. This management process shall be utilized by the ISSTs and CMP Prevention Programs when providing services to children and families serviced by the parties to this MOU, designed to reduce duplication and fragmentation of services, increase the quality, appropriateness, and effectiveness of services delivered to families, and encourage cost sharing among services providers. All of which can be found in the By-laws/Procedure Guide attached as *Appendix A*. **By signing this MOU, the Parties agree to follow and review these by-laws annually to ensure all statutory and rule mandates are met.**

VIII. Collaborative Management Program Elements.

Pursuant to section 24-1.9-102(2)(e), the parties agree to implement collaborative management processes (VII) in order to:

- A. Reduce duplication and eliminate fragmentation of services provided to children, youth and families who would benefit from integrated multi-agency services. The Parties will reduce duplication and fragmentation of services by *Appendix A. Article XIV, Section 1*.
- B. Increase the quality, appropriateness, and effectiveness of services delivered to children and families who would benefit from multi-agency services, to achieve better outcomes; the Parties will increase the quality, appropriateness, and effectiveness of services delivered through: *Appendix A. Article XIV, Section 2*.
- C. Encourage cost sharing among service providers. The Parties will encourage cost sharing through: *Appendix A. Article XIV, Section 3*.

IX. Process Measures.

Please select all the process measures that the CMP site will attempt to achieve. Each CMP site must select at least three (3).

- IOG meeting attendance (all partners signing MOU attending 75% of the time at 75% of scheduled meetings);
- Family agency or member participation on the IOG as a voting member;
- Seventy-five (75%) percent of the agencies contribute resources at a service level, either in-kind or actual funds;
- Use of Evidence Based or Evidence Informed practices;
Process of Continuous Quality Improvement used by the IOG;
- Evidence of cost-sharing
 - Appendix A. Article XIV, Section 3.* Additionally, cost-sharing data will be collected and tracked with individual client data and reported annually.

X. Data.

The Parties agree to use either the State-provided Efforts to Outcomes (ETO) database and/or the Comprehensive Child Welfare Information System (CCWIS)/Trails for data collection for CMP-served clients. ETO shall be used for non-child welfare children, youth, and families to track participation. Trails or CCWIS databases shall be used for all Child Welfare CMP-served children, youth, and families.

The Parties agree by signing this MOU that the attestation statement shall be completed and the Parties shall comply with [Operational Memo OM-DCP-2024-0001](#). The CMP site is responsible for ensuring there is no duplication of clients entered into ETO and/or Trails. Duplication is defined as a child, youth, or family that is counted twice for the same ISST meeting or prevention program and recorded in one (1) or more CMP data system(s). A child, youth or family may be counted for multiple service episodes supported by several multi-system partnerships.

An outcome must be determined and documented for each client supported by an Individualized Service and Support Team (ISST). The CMP State Steering Committee establishes the outcomes and measurements for each CMP site to choose from.

XI. Confidentiality Compliance. The Parties agree that State and Federal law concerning confidentiality shall be followed by the Parties and *ACCMP*. Any records used or developed by *ACCMP*, its members, a listed ISST, or a listed Prevention Program that relate to a particular person are to be kept confidential and may not be released to any other person or agency, except as provided by law. The Parties have developed a release of information that addresses the confidentiality needs of all Parties attached as an *Appendix D*.

SFY 2024-2025

XII. Termination of MOU. The Parties acknowledge that withdrawal from this MOU of any Mandated Party shall result in the automatic termination of this Agreement and termination of the collaborative system of delivery of services developed hereunder. The withdrawing Party shall assist the other Parties to achieve an orderly dissolution of the collaborative system with as little disruption as possible in the delivery of services provided to children and families who would benefit from multi-agency services.

- A. Withdrawal/Termination.** Any Party may withdraw from this Agreement at any time by providing 30 days written notice to all other Parties.

- C. Distribution of Funds.** The Parties have established a collaborative management process addressing the distribution of funds if the MOU is terminated as further described in the by-laws/procedure guide. *Appendix A. Article XIX*

For any family meeting held within Adams County, a multi-systemic approach, meaning active participation in the meeting by 2 or more systems, must be present. ISSTs to be included in ACCMP are reviewed and determined annually based on both quantitative and qualitative data on effectiveness.

SERVICE DESCRIPTIONS

Section 1. INDIVIDUALIZED SERVICE AND SUPPORT TEAMS (ISSTs)

An Individualized Service and Support Team (ISST) includes two (2) or more system representatives that are present to assist a child/youth/family with developing an integrated service plan directed by family need. The ISST identifies goals and facilitates collaboration and is a family-driven model for service planning. The child/youth/family members are present at and participating in the development of their plan. ISSTs are mandated to provide one of the following 1) Multi-systemic approach, 2) Multiple disciplines were involved in the development or enhancement of the program, 3) Multiple agencies are involved in the delivery of the services, or 4) Program was developed to reduce bifurcated services

Partnering for Adams County Kids (PACK)

ACCMP's ISST, Partnering for Adams County Kids (PACK) is a 2Gen approach and multi-system integrated planning program for Adams County children, youth, and families by connecting them to appropriate services and supports through a voluntary service navigation and connection model that is focused on prevention, intervention, elevating family voices, and streamlining access to community resources. All Adams County families with a child/youth from birth to 21 years old are eligible to request a PACK Meeting. Referral sources may be self-referral or from a community partner already working with the family.

Facilitation will be provided by the ACCMP Supervisor or by an experienced facilitator from another ACCMP agency not currently associated with the youth. PACK meetings are held in the venue most convenient for the family and may include but are not limited to a virtual, school, or community location. PACK meetings address peer and family social networks/support, health/wellbeing, economic, such as housing and transportation, and developmental such as daycare, education and training as identified by the youth and family.

A PACK meeting may include ACCMP partners, and any other system involved with the family, requested by the family, or identified as a possible knowledge base or support for the family may be invited to participate. This ISST ensures a multi-system approach addresses the identified priorities and goals of the family are met, and that an integrated plan is constructed by all participants to reduce fragmentation delay in services rendered. PACK meetings will be scheduled ad hoc and will include a post-meeting survey for families to provide feedback to determine future program changes, and to ensure the program is effectively and equitably serving the identified needs of children, youth, and families in Adams County.

PACK meetings directly addressing the needs of a youth in the family system will provide targeted approaches to enhance youth stability in the home, school, and community; as well as prevent further juvenile justice and/or child welfare system involvement. A family referred to PACK may include a validated assessment tool.

PACK meetings may be designed for elementary and middle school students who are chronically absent, defined as missing 10% or more of school days or have identified behavior challenges in school. Students are identified and referrals are completed by classroom teachers, school counselors or school administration.

The ACCMP has oversight and will track data and trends for effectiveness, resource navigation, community need, and patterns to achieve better results for Adams County families. The benefits of this approach ensure families are connected to supportive resources within a functional, communicative system that responds to community needs in a timely fashion, with identified roles, the voice of the family driving the solution-focused, and planning discussion. This approach also encourages cost- and resource-sharing among community partners to reduce duplication and fragmentation of services delivered and aims to facilitate bi-directional communication and collaboration between schools/district personnel and community agencies/service providers; improving capacity for families to receive needed supports.

SERVICE DESCRIPTIONS

PREVENTION PROGRAMS

A multisystem prevention program must include two (2) or more system representatives that establish a program that facilitates collaboration and address needs not currently provided within the community. Prevention programs are mandated to meet one of the following: 1) multi- systemic approach; 2) multiple disciplines involved in the development or enhancement of the program; 3) multiple agencies involved in the delivery of the services; 4) program developed to reduce bifurcated services; or 5) joint approach benefiting children, youth and or families.

Foster and Kinship Medical and Behavioral Health Care Coordination

The target population for this prevention program is children and youth in the legal custody of Adams County Human Services Department (ACHSD). ACHSD will be collaborating with the Regional Accountable Entity (RAE), Colorado Access, to identify and collaborate preventative medical and behavioral health care for children its custody. This intervention will involve other systems as needed.

The purpose of the program is to prevent further system involvement and promote positive mental health for children and youth who have suffered the trauma of having a removal from their home. This intervention will not only increase positive health and safety outcomes but will also decrease duplication of services and increase communication amongst systems and caregivers to assist a vulnerable population.

ACHSD will connect foster and kinship caregivers to Colorado Access Care Coordination & Management Programs; information will be delivered to caregivers after placement and by foster care certification and kinship caseworkers routinely and as part of re-certification and training. A monthly email notification of the removals will also be sent to the Program Manager of Member Affairs at Colorado Access and will include the caseworker's name and email address. This will ensure faster services and coordination of care.

ACHSD and Colorado Access will report to the IOG 3-4 times a year on trends, successes, and barriers to serving these children and youth and achieving positive outcomes. As a collaborative, using a continuous improvement lens, the IOG will generate small tests of change to identify effective practice innovations that continually serve children, youth, and families better.

Community Development and Prevention Services Interventions

ACCMP's Prevention Program with Adams County Human Services Department, Children & Family Services' Community Development & Prevention Services is a multi-system intervention to meet the needs of families at risk of further child welfare and juvenile justice involvement. ACCMP and ACHSD's

Community Development & Prevention Services Team serve as gateways to local system and services coordination that come through child welfare referrals and direct inquiries to support a family. The target population is screened out referrals submitted to the child protection hotline or referral to ACCMP and ACHSD's Community Development & Prevention Services Team for in which collaboration, resource sharing, cost-sharing, or other provision of services occurs between ACCMP, ACHSD's Community Development & Prevention Services Team, and families residing in Adams County with children from birth to 21 years in the home.

Through collaboration with referring parties (schools, service and treatment providers, juvenile justice system partners, community mental health partners, other family connected systems and mandatory reporters), resources and expertise are combined in a supportive manner with the goal of stabilizing a family, educating community partners, and service to the family with the goal of diverting from formal child-protection system involvement. Initial steps include reviewing screened out referrals or inquiries for known family circumstances, research and contact relevant service providers and provide to the referring system/person who has a relationship with the family, direct contact with the family to discuss family circumstances and identify and connect to local supports and services, and/or coordinating referrals to an ISST or other community-based family meeting. This Prevention Program ensures a multi-system approach addresses the identified priorities and goals of the family are met, and where appropriate that an integrated plan is constructed by all participants to reduce fragmentation delay in services rendered.

The ACCMP will track data and trends for effectiveness, resource navigation, community need, and patterns to achieve better results for Adams County families at least annually with ACCMP members to inform program changes and data collection for the following year. The benefits of this approach ensure families are connected to supportive resources within a functional, communicative system that responds to community needs in a timely fashion, with identified roles, the voice of the family driving the solution-focused and planning discussion. This approach also encourages cost- and resource-sharing among community partners to reduce duplication and fragmentation of services delivered.
