**RE: Denver Expansion Project
Areas and Activities of State Interest Permit Application**

To whom it may concern:

On behalf of our client, Magellan Pipeline Company, L.P. (Magellan), we hereby submit this letter to inform you of Magellan's intent to construct the proposed Denver Expansion Project (Project) within Adams County on land currently zoned as Denver International Airport, Aurora, and Agricultural-3. The Project involves the installation of approximately 235 miles of new buried pipeline of varying diameter (i.e., 10-inch and 16-inch) that will be utilized to transport various transportation fuels, including aviation and sustainable aviation fuel from Scott City, Kansas to the Denver International Airport in Colorado. Of the 235 miles of pipeline, approximately 12 miles of 10-inch-diameter pipeline traverse Adams County. The Project also involves the installation of several aboveground rupture mitigation valves (RMVs) and trap facilities along the new pipeline.

Construction of the Project is estimated to impact a total of 89.07 acres within Adams County. Following construction, a 30-foot-wide permanent easement centered on the new pipeline will be retained in Adams County. Operational impacts on land use will be limited to those areas associated with small aboveground facilities (e.g., RMVs) and the occasional mowing of the permanent pipeline right-of-way (ROW). There will be no proposed change in the existing zoning (Denver International Airport, City of Aurora, and Agricultural-3).

The contact information for the Project is below.
