**Subject: Review and acceptance of CSI Risk Assessment Report and Supplemental Waste Identification Plan for Conservation Services, Inc.**

Docket #5861

Dear Mr. Scheere,

Radiation Management and Solid Waste Unit staffs have reviewed the revised risk assessment and waste identification plan submitted in December 2004 and updated May 2006. Both of these documents are acceptable to the Department, and it is recommended that Adams County give them due consideration for acceptance and implementation.

These documents are the result of considerable effort and resources expended in generating the risk assessment and numerous meetings with Department staff on updating the Waste Identification Plan to be incorporated in the Design and Operations Plan for the facility.

Please copy us on related correspondence from Adams County for our files.
