Re: Case Number EXG2012-00004 Minor Amendment to Case Number 1988-086-CD(A)
Change of Monitoring of Prepared Bed Biological Treatment Units (PBBT)

Dear Mr. Scheere:

This Department has concluded its review of your request dated August 3, 2012, to change monitoring frequency of the PBBT Units at Conservation Services Inc. (CSI). The application is for a Minor Amendment to the Certificate of Designation Case Number 1988-086-CD(A).

The change is to reduce frequency of monitoring of the efficiency of the PBBT Units to reduce oil by use of bacteria eating the oil wastes. Current monitoring has proven the ability of the Units to reduce oil waste and the monitoring is not used for any of the safety monitoring systems at the facility. Colorado Department of Public Health and Environment (CDPH&E) reviewed and approved the change as a non-substantial change with conditions by letter dated June 19, 2012.

Adams County Department of Planning and Development has made the determination this application meets the minimum standards in the Adams County Zoning Regulations for approval as a Minor Amendment to Case Number 1988-086-CD(A). Based upon this review, this Department **approves** the change in monitoring and adopts the conditions in the CDPH&E approval letter of June 19, 2012. CSI shall continue to provide copies of the PBBT monitoring results.

Please do not hesitate calling me at 720-523-6814 should you have any questions regarding this approval.

Sincerely,

Craig Tessmer
Environmental Analyst
