Conservation Services, Inc.
41800 E. 88th Avenue
Bennett, CO 80102

Dear Neighbor,

Waste Management believes in being a good neighbor and an active participant in making our community a strong and healthy place to live, work and play. To that end, we are contacting you to invite you to a neighborhood meeting to learn more about an upcoming permit renewal process for Conservation Services, Inc. Landfill (CSI).

CSI is a landfill located at 41800 E. 88th Ave, Bennett, CO 80102 and is owned and operated by Waste Management. It is a regional facility providing safe and convenient disposal services for communities, businesses and industries serving Adams County and surrounding areas. Since 1989, CSI has provided the industrial community a wide variety of waste disposal and recycling options and has an exemplary compliance and safety record. This facility is engineered with environmental protection systems that meet or exceed rigorous government regulations and are subject to highly regulated monitoring and reporting requirements.

CSI is currently seeking a renewal of their existing Certificate of Designation (CD). A CD is the site's conditional, regulated operating permit issued by the Adams County Board of County Commissioners with the cooperation and approval of the State of Colorado Department of Public Health and the Environment. The CD renewal will allow CSI to continue to provide environmentally sound management of non-hazardous wastes to the industrial community, continue to employ local residents and support the surrounding community. As part of this permit renewal process, we will also be proposing some changes to our current operations. These include implementing an enhancement to the current treatment operations that would reduce the volume of solids that would need to be landfilled. This new process would recover oils and water, which would then be recycled and/or beneficially used.
