**Re: Notice to Potential Mineral Rights Owner
Conservation Services, Inc. Disposal Facility
Section 25, T2S, R64W of 6th Principal Meridian
Adams County, Colorado**

To Whom It May Concern;

Conservation Services, Inc. (CSI) and Waste Management of Colorado, Inc. (WMC) have identified the above addressee as a potential owner of minerals rights at the above referenced property and on behalf of CSI and WMC we are hereby providing notice of a pending public hearing regarding a continuation of the facility permit for the referenced property.

The CSI facility is a disposal facility that has been in operation since 1988 and includes parts of Section 25, Township 2 South, Range 64 West of the 6th Principal Meridian in Adams County, Colorado. The facility permit is up for renewal and an application for renewal has been submitted for consideration to the Adams County Board of County Commissioners (ACBCC). The property boundary and development footprint is not being modified from the originally permitted property and development footprint, and we anticipate public hearings will be held in June or the first part of August 2014.

This notice satisfies the Adams County requirements for notice of the permit renewal application to potential mineral rights owners. Please feel free to contact me at 303-948-7733 if you have any questions.

Respectfully,

American Environmental Consulting, LLC

Mark A. McMullen
Principal
