Subject: Welby Sub Area Plan

Joelle,

A quick note to thank you for all of your hard work on the Welby Plan. We have one suggestion regarding the road system you shared as an example of possibilities; create a transportation committee comprised of Adams County Transportation, CDOT, as well as any of the property owners who have new proposed streets on their land. As you mentioned, what you proposed was only a first try. This committee would be a place to have a better discussion about possibilities. Also, we do believe 73rd Avenue as well as 74th Avenue need to be addressed regarding not only car traffic but pedestrian traffic.

Vic and Norma Frank
