Please forward

Dear Kelli Frank

I did not see a phone number for you and I had a question

What is happening with the beautiful home in the heart of Welby, on York just south of 76th Avenue on the west side of the road

It has a rectangular one story structure built like a garage next to it

I was told that it once functioned as the Welby fire station and that the garage structure held the fire trucks

Is it protected, is it still government owned, and when will it be restored?

Have asked these questions before

I am very frustrated because in my lifetime I have seen many historic old buildings taken down

I read about Welby as a child and found it remarkable, and fell in love with Welby sight unseen

Was finally able to move here from Chicago 11 years ago and bought a home here and this is really bothering me

Please email me and let me know who is discussing the future of this building

I cannot attend meetings because I work in the evenings, thank you,

Alice I Hallam
