Signature Blocks

In the ownership section of the title commitment cited above, it indicates that the Todd Creek Metropolitan District is the owner of any part of Tract I, Baseline Lakes Subdivision - Filing No. 1, that falls within the boundary of the preliminary plat. No part of Tract I is located within the preliminary plat. Therefore, a signature block for the Todd Creek Metropolitan District is not required. Note that Tract I is adjacent to a part of the preliminary plat.

Oil and Gas Well Access

The was a question about access to the KPK oil and gas well no. 18349 in Tract J. The 25’ easement granted at Reception No. 2006000999257 has “access” as one of its uses. That, together with the 150’ gas easement granted in Book 2976 at Page 687 may meet the need for access to the well. A real estate attorney should be consulted for a definitive opinion on this matter.

Baseline Lakes Major/Preliminary Subdivision

Project Summary

Existing Development

Baseline Lakes is an existing subdivision generally located at the intersection of Lima Street and 168th Avenue. The Planned Unit Development – Final Development Plan (PUD/FDP) for the Baseline Lakes Subdivision, approved in 2006, contained 317 acres with 197 lots. The first phase of the project, Baseline Lakes Subdivision Filing No. 1, was recorded in 2006 and platted approximately 133 acres creating 54 single family lots. Filing No. 1 included two water storage reservoirs – Stouffer Reservoirs 1 & 2.

Proposed Development

The preliminary plat amendment redefines the portion of the Baseline Lakes FDP south of Filing 1 and west of Lima Street/Havana Street. The plat amendment will be platted as Baseline Lakes Subdivision Filing 2, which includes 71.06 acres and creates 34 single family lots and 11 tracts.

Roadways

The local roadways will be a rural road section – two 12’ asphalt lanes with 6’ gravel shoulders and roadside swales. Driveways for each lot will have culverts. The shall be no improvements to Havana Street, 164th Avenue, Lima Street, and 168th Avenue.

Utilities

All lots are a minimum 1 acre and will be served by individual septic systems. Water will be provided by the Todd Creek Village Metropolitan District. The District did not provide a will serve letter. The District stated that the District will serve the subdivision under the existing Water Service Agreement between the District and Baseline Lakes. We’ve met with the Brighton Fire Rescue District. A Fire Report has been prepared per the fire flow requirements of the District.

Drainage

The drainage for Filing 1 flows to a 2 separate detention ponds throughout the site. The detention ponds have been sized to detain the 100 year event and provide water quality. Outfalls for the detention ponds and downstream drainage improvements will be constructed to convey the pond discharge to the existing roadside swale system. The existing northern roadside swale along Havana/Lima street will be improved to accommodate higher flows.

B. LAND DEDICATION/CASH-IN-LIEU REQUIREMENTS
(See attached Table 1 for methodology)

The District requests cash in lieu of land dedication in the amount of $9,360 (Adams County calculation).

C. SCHOOL BOUNDARY AREAS

Students from this proposed development would currently attend:

Brantner ES – 7800 E 133rd Avenue, Thornton
Quist MS – 13451 Yosemite Street, Thornton
Riverdale Ridge HS – 13380 Yosemite Street, Thornton
D. CAPITAL FACILITY FEE FOUNDATION (see attached Table 2 for methodology)

The Capital Facility Fee Foundation is a unique public/private nonprofit organization founded in January 2001 to help fund school expansion or new school construction. This program has been developed in partnership with each of the municipalities in the District, developer and builder representatives, and School District 27J. Funding is provided by builders and developers who have agreed to contribute per residential dwelling unit based on the current fee structure.

The current (as of January 1, 2021) fees negotiated for this program are as follows: $865 per single family residential unit and $494 per multi-family unit.

SCHOOL DISTRICT PLANNING COMMENTS AND RECOMMENDATIONS:

1. The District requests cash in lieu of land dedication in the amount of $9,360.

2. Prior to the approval of the final subdivision plat, we recommend that the developer enter into an agreement with the Capital Facility Fee Foundation to mitigate the impact of this development on District school facilities. Given the residential units planned for Todd Creek Baseline Lakes Filing 2, the tax-deductible capital facility fees are projected to be $29,410. If lots are sold by the developer, the participant agreement may be assigned to the builder for those lots. CFFF fees may be paid in a lump sum or by lot as permits are pulled. We would appreciate your support of our students, families, and community.

We appreciate your continuing cooperation and the opportunity to comment upon issues of interest to both the City and the School District. We look forward to receiving updated referrals on this subdivision. Please let me know if you have questions about these comments.

Sincerely,

Kerrie Monti

I. GENERAL LOCATION AND DESCRIPTION

A. Site Location

The Baseline Lakes project site is located on ±223 acres of land located in the southeast quarter section of Section 3, and the north half of Section 2, Township 1 South, Range 67 West of the Sixth Principal Meridian, County of Adams, State of Colorado. The site is located south of E. 168th Avenue, west of Tucson Street, and east of Yosemite Street.

B. Existing Potable Water System

Information regarding existing water facilities have been gathered from the Todd Creek Village Metropolitan District. There was a fire flow test preformed and the results are as follows:

The hydrants on the 66th and Lima on the east side had static pressure of 126psi and 94psi residual pressure with the flow hydrant showing 1755gpm @ 75psi.

The hydrants on the 164th and Kingston on the north side had static pressure of 117psi and 90psi residual pressure with the flow hydrant showing 1755gpm @ 75psi.

An existing 12-inch water main currently runs within Lima Street from the intersection of East 168th Avenue south, along 164th Avenue and Havana Street. Another existing 12-inch waterline runs north from 164th Avenue up through Joliet Street and 166th Place.

The attached Sheet 01 shows the locations of existing fire hydrants.
A. Proposed Potable Water System

The proposed local streets will contain 8-inch PVC waterlines which will be connected to the existing 12” mains in Havana Street and Joliet Street. The new waterlines will be interconnected through the entire site. All fire hydrants connections will be 6” ductile iron pipe. The attached sheet EX-1 shows the locations of all new fire hydrants.

A WaterCAD model was prepared for this development utilizing Todd Creek Village Metropolitan District criteria. Using the pressures provided by the Fire Flow Test, scenarios were run for the proposed project including Static HGL with No Demand, Static HGL with Peak Hour Demands, Maximum Day Demands and Max Day Demands plus Fire Demand.

Max Day: Max Pressure = 122 psi, Min Pressure = 99 psi
Max Daily + Fire Flow: Min Pressure = 51 psi, Max Velocity = 0.16 fps
Peak Hour: Min Pressure = 99 psi, Max Velocity = 0.50 fps
Fire Flow Rate = 2,000 gpm

Design criteria used is as follows:

- 3.45 persons per dwelling
- Average Day = 150 gallons per person per day
- Maximum Daily = 3.2 x Average Day (Residential)
- Maximum Hourly = 5.76 x Average Day (Residential)

Spreadsheets detailing the pipe flows, velocities and pressures at junctions called out within the WaterCAD model can be provided upon request.

Except as provided herein, District acknowledges and agrees that no infrastructure for Water Service is required that is offsite of the Property.

   (b) District will provide potable water service and irrigation water service (collectively, the “Water Service”) to 136 final platted lots and any associated tracts for the Property (each, a “Lot” or “Tract”). Water Service demand shall not exceed 0.55 acre/feet/year for each Lot. In addition, service shall be provided in accordance

[00019085 5] 2
with and subject to the District’s rules and regulations as they may reasonably change from time to time, including any limits on irrigation (currently limited to 5,000 square feet of landscape area excluding perimeter trees). As consideration for the Water Service, Owner shall pay District a water resources fee in an amount equal to $7,875.00 per Lot or Tract within 30 days after the approval by Adams County of the Subdivision Improvement Agreement for each filing, phase or phases in which the Property is developed, or upon the sale, transfer or conveyance of a filing, phase or phases of the Property from the Owner to any unrelated and/or unaffiliated third-party, whichever shall occur first ("Water Service Payment"). Owner and District agree that Owner may develop the Property in one or more filings or phases without limitation as to the number of filings or phases. Except for the tap fees as specifically set forth below, District hereby agrees that no additional compensation or consideration will be required for the Water Service. The date that Owner pays the first Water Service Payment per the terms of this Restated Agreement shall be the "First Amendment Payment Date" hereunder. For purposes of explanation only, the Water Service Payment is calculated on the basis of .45-acre feet per Lot or Tract and a per acre foot cost of $17,500.00.

(c) All engineering plans and specifications for the construction of Water Main Lines, Local Facilities and Regional Facilities as defined in the District’s Rules and Regulations, including connections, pump stations and all appurtenances thereto, as well as Water Service Lines, shall be subject to the review and approval of the District. All plans and specifications shall be prepared by a professional engineer licensed in the State of Colorado. District agrees that any review and approval of the engineering plans and specifications shall be made in a timely manner, not to exceed 20 business days, and shall not be unreasonably withheld, conditioned or delayed.

(d) District and Owner agree to reasonably cooperate with one another at no additional cost or expense to secure any necessary easements and rights-of-way required for the Water Service. In addition, District and Owner hereby agree that, as part of the Water Service, District is required to convert an eight-inch line to a 12-inch line from Havana west to the Shook Valve Station (located on the western boundary of the Shook Subdivision), all running along the northern boundary of the Shook Subdivision, and an irrigation line bore under Highway 7 (collectively, the "District Improvements"). District shall construct the District Improvements, the total cost of which are estimated to be $225,000.00. Owner shall, following completion of the District Improvements and within 30 days after receipt of all invoices and other reasonable evidence of the actual costs therefor, reimburse District for an initial 67.66% of the actual, out-of-pocket costs and expenses associated with the District Improvements.

(e) If and to the extent Owner constructs or installs line(s) and other facilities, Owner shall contract for installation of the line(s) and other facilities utilizing the plans and specifications provided in this Restated Agreement, as approved by District. Owner shall have the sole option of selecting the successful bidder for the project; provided, however, that District shall be entitled to inspect the construction of the project utilizing inspectors of its choice and the reasonable cost of such inspection
shall be paid by the Owner. District shall be given the right and authority in the 
Owner's contracts to stop construction in the event it is proceeding in a manner 
reasonably unacceptable to the District. District agrees that any inspection of the 
construction and any fees related thereto shall be in compliance with the rules, 
regulations and standards of the District applied in a uniform and non-discriminatory 
manner.

(f) Owner shall comply with Colorado Department of Health, District and 
other applicable rules, regulations, engineering standards and specifications 
governing the installation contemplated by this Restated Agreement and the Water 
Service to be provided thereafter.

(g) District shall be entitled to obtain and/or retain all rights to the use of 
effluent and lawn irrigation return flows from the Property.

(h) Prior to the date hereof, Owner has conveyed to District by Special 
Warranty Deed free and clear of all liens and encumbrances a 30-foot easement for 
pipeline purposes to accommodate the Brantner Ditch headgate to Reservoirs 
pipeline. However, as of the date hereof and to accommodate the development of the 
Property and the operations of the District, District and Owner have agreed to relocate 
the 30-foot easement. Owner hereby agrees, at Owner's cost and subject to the 
District's rules and regulations applied in a uniform and non-discriminatory manner, 
to relocate and resize to 12” the raw water delivery line from the pump station on the 
New Brantner Ditch to Lima Street. As such, from and after the date hereof, District 
and Owner covenant and agree to execute such reasonable vacation, conveyance and 
easement documents as necessary to relocate the 30-foot easement along the property 
lines of the Property and otherwise in an area mutually and reasonably agreed upon in 
good faith. Notwithstanding anything contained herein to the contrary, in no event 
shall District be permitted to use the 30-foot easement discussed in the preceding 
sentence for the granting of an easement to or for any oil and gas company or 
operator in the vicinity of the Property, it being the intent of Owner and District that 
such 30-foot easement shall be personal to District.

(j) Notwithstanding anything contained in the District's rules, regulations and 
standards to the contrary, District hereby agrees that, for a period of five years from 
the Effective Date of this Restated Agreement, the tap fees for Water Service for each 
Lot shall be an amount equal to $28,000 per ¾” potable/irrigation water tap 
combination. From and after the date that is more than five years after the Effective 
Date, the tap fees per potable water tap and irrigation water tap shall be per the 
District rules and regulations. District hereby agrees that the tap fees set forth herein 
shall be payable upon the issuance of the building permit for the applicable Lot.

As consideration for the terms and conditions hereof, District has disclosed to Owner 
that the two current reservoirs known as Stouffer Reservoir No. 1 and Stouffer Reservoir No. 2 
A/K/A Baseline Lakes (collectively, the "Reservoirs") owned by the District have increasingly 
become a burden to the District due to ongoing complaints by the residents residing in the areas 
adjacent to the Reservoirs. Although currently unsubstantiated, these include complaints that the
Reservoirs are causing (a) high groundwater tables that may or may not be causing leakage in the basements near the Reservoirs; (b) safety and liability issues in connection with the trespassing of children; and (c) fears surrounding the failure of the Reservoir infrastructure in the case of a major storm (collectively, the “Claims”). As a solution to negating these Claims, albeit unsubstantiated, and without admitting any fault, liability or wrongdoing on the part of the District, District hereby requests that Owner use reasonable efforts, in connection with Owner’s entitlement and development of the Property, to modify the current entitlements in and for the Reservoirs to allow for the District to develop the Reservoirs into approximately 26 single family residential lots (collectively, the “Reservoir Approvals”). The Reservoir Approvals shall include the removing, if possible, of the “open space” designation for the Reservoirs and obtaining a final plat for platted lots on the real property compromising the Reservoirs. Owner hereby agrees to facilitate and process the entitlement component of the Reservoir Approvals at Owner’s cost. The District agrees to cooperate in all respects with Owner’s processing of the Reservoir Approvals, including cooperating on all open space dedications. Owner, by agreeing to facilitate and process the Reservoir Approvals, disclaims any liability for the failure to obtain the same, it being the intent of the parties that Owner’s agreement hereunder is merely to accommodate and assist the District and use reasonable efforts to obtain the Reservoir Approvals. In no event shall Owner’s failure to obtain the Reservoir Approvals be a default hereunder and/or alter or modify the remaining terms, covenants and conditions of this Restated Agreement, except if Owner unreasonably fails or unreasonably refuses to accommodate or assist the District and make reasonable efforts as required herein. Further, in no event shall Owner be required to agree upon any entitlements or approvals for Owner’s Property that would be detrimental to the overall development of Owner’s Property to secure the Reservoir Approvals. In connection with the Reservoir Approvals, Owner and District agree to cooperate in good faith as to such matters as exchanging property to accommodate lot lines, drainage, detention and open space matters. Notwithstanding the foregoing, if the Reservoir Approvals are not obtained and the Reservoirs remain in existence, the Will Serve Letter (as defined in Paragraph 7 hereof) shall contain a condition that any residence or building constructed within the Property that has a basement as part of such structure shall contain a commercially reasonable waiver of the Claims in the conveyance deed of such structure or in such other recorded document as is reasonably acceptable to the District and Owner.

3. **Ownership of Main Line and Other Facilities** As defined in the District’s Rules and Regulations, District shall own, maintain and operate all Local Facilities, Regional Facilities, Water Mains and related facilities installed by Owner and dedicated to the District. Owner shall own, maintain and operate all Water Service Lines and related facilities. It is the responsibility of the Owner to be familiar with the extent of each party’s ownership and maintenance responsibilities as declared in the District’s Rules and Regulations.

4. **Water Service Charges.** Owner or the successor owner of any Lot or Tract shall pay monthly service charges for the Water Service provided to the Property or such Lot or Tract at the rates currently in effect for the District. District charges are subject to adjustment from time to time in the discretion of the Board of Directors of the District and, as such adjustments are made, the same adjustment shall be made to the rate charged Owner or the successor owner of any Lot or Tract under this Restated Agreement. The District at the Owner’s or successor owner’s expense shall install water meter(s) in accordance with the District’s Rules and Regulations to determine the amount of water delivered by the District to the Property or any Lot
or Tract. Unpaid fees and charges of the District shall constitute a perpetual lien against the Property or such Lot or Tract, as the case may be, until paid and shall be enforced as provided in § 32-1-1001(1)(j)(I), C.R.S.

5. **Governmental Approvals.** Owner shall file the appropriate application(s), with the full cooperation of District, as required by applicable governmental entities and shall be responsible for all costs and expenses, including engineering and legal fees which may be incurred in connection with securing application approval. In the event such approval shall not be granted, Owner shall have no further obligation to District, nor shall District have any further obligation to Owner.

6. **Conflict.** In the event of any conflict between the District rules, regulations and standards and the terms of the Agreement, as amended by this Restated Agreement, the terms of this Restated Agreement shall control in all instances.

7. **Will Serve.** Concurrently with the execution and delivery of this Restated Agreement, and thereafter from time to time at the request of Owner, District will execute and deliver to Owner an executed “Will Serve Letter” in substantially the form of Exhibit B attached hereto. Notwithstanding the form of Will Serve Letter attached hereto as Exhibit B, if the Reservoir Approvals are not obtained and the Reservoirs remain in existence, the Will Serve Letter shall contain a condition that any residence or building constructed within the Property that has a basement as part of such structure shall contain a commercially reasonable waiver of the Claims in the conveyance deed of such structure or in such other recorded document as is reasonably acceptable to the District and Owner.

8. **Term of Agreement.** This Restated Agreement shall continue in effect in perpetuity, unless terminated by mutual agreement of the parties.

9. **Binding.** This Restated Agreement and all benefits and burdens hereof, shall be binding upon and inure to the benefit of, the successors and assigns of the parties hereto. This Restated Agreement shall be recorded in the Official Records and shall run with the Property.

10. **Entire Agreement.** This Restated Agreement, including all Exhibits, constitutes the entire agreement between the parties hereto and sets forth the rights, duties, and obligations of each to the other as of this date. Any prior agreements, promises, negotiations, or representations not expressly set forth in this Restated Agreement are of no force and effect. This Restated Agreement may not be modified except by a writing executed by both the Owner and the District.

11. **Binding Agreement.** This Restated Agreement shall inure to and be binding on the heirs, executors, administrators, successors, and assigns of the parties hereto.

12. **No Waiver.** No waiver or any of the provisions of this Restated Agreement shall be deemed to constitute a waiver of any other of the provisions of this Restated Agreement, nor shall such waiver constitute a continuing waiver unless otherwise expressly provided herein, nor shall the waiver of any default hereunder be deemed a waiver of any subsequent default hereunder.
13. **Compliance with Law** Owner shall comply with all local municipal, state, federal and governmental laws, orders and regulations applicable to the subject matter of this Restated Agreement.

14. **Controlling Law** This Restated Agreement shall be governed by and construed in accordance with the law of the State of Colorado.

15. **Notice** For purposes of this Restated Agreement, any notice shall be deemed to have been properly given and deposed in the U.S. Mail, postage pre-paid, certified, return receipt required and addressed as follows:

Re: Baseline Lakes Subdivisions Filings 2,3,4 & 5

Dear Carlson Associates,

This letter is to confirm that Xcel Energy is your utility provider for natural gas. In accordance with our tariffs, on file with and approved by the Colorado Public Utilities Commission, gas facilities can be made available to serve the project at Baseline Lakes Subdivisions Filings 2,3,4 & 5.

Your utility service(s) will be provided after the following steps are completed:

- **Application submitted to Public Service’s “Builders Call Line (BCL)”** – once your application is accepted you will be assigned a design department representative who will be your primary point of contact
- **Utility design is completed** – you must provide your design representative with the site plan, the one line diagrams, and panel schedules for electric and gas loads if applicable
- **All documents provided by design representative are signed and returned**
- **Payment is received**
- **Required easements are granted** - you must sign and return applicable easement documents to your Right-of-Way agent
- **Site is ready for utility construction**

A scheduled in-service date will be provided once these requirements have been met.

It is important to keep in mind that the terms and conditions of utility service, per our tariffs, require that you provide adequate space and an easement on your property for all gas and electric facilities required to serve your project, including but not limited to gas and electrical lines and meters, transformers, and pedestals. General guidelines for these requirements can be found at [Site Requirements](#). Easement requirements can be found at [Utility Design and Layout](#).

Xcel Energy looks forward to working with you on your project and if I can be of further assistance, please contact me at the phone number or email listed below.

Sincerely,

Nathan Tippimanachai
